High-End Computing

Gaming Laptops
With technological advancement, laptops have more powerful processing capability than ever; some of which now outperform desktop computers through a range of impressive specifications.

Renowned industry names, such as MSI, offer cutting-edge laptops, capable of running multiple complex operations simultaneously. These are ideal for demanding projects and video games.

Packed with the latest 9th gen i7 processors, fast-loading SSDs and up to 64 GB of RAM, these machines are versatile for a variety of event arenas, such as: gaming, large conference applications, simulations, 3-D rendering and more.

Desktop Computers
We rent desktops engineered with performance and precision in mind. All components are specifically designed to ensure each unit runs at maximum efficiency.

These computers are more than capable of running Gamethon-level events, giving participating players an advantage over the competition.

The latest generation processors, powerful RAM and superfast Solid State Drives mean these desktops are suitable for an intense range of event styles and requirements.
Cables & Adapters

Wired/Wireless
Keyboard & Mouse
- Connect these accessories to a laptop or computer via Bluetooth or USB
- Perfect for meetings and conferences

USE YOUR PHONE AS A SCANNER FOR EVENTS ON PAGE 21
Networking & WiFi

**Enterprise 4G Router**
- Provides high performance, secure cloud solutions
- Provides high performance, secure cloud solutions

**4G LTE MiFi Router**
- MiFi Routers allow you to connect 1-7 devices to the internet at once
- The MiFi Router needs a 4G SIM Card for up to 7 devices

**Personalised Bonded Internet Setup**
- Used for intricate setups
- Will allow for any sized event to have a personalised network

**Ruckus ZoneFlex R610 Indoor AP**
- Indoor Wi-Fi solution
- Industry-leading performance and reliability

**Ruckus ZoneFlex T710 Outdoor AP**
- For outdoor Wi-Fi connections, festivals and pop-up shops

**Satellite Internet**
- Full installation services of satellite internet
- Ideal for events in locations with limited or no internet, for areas that lack existing infrastructure and mobile events

**Point to Point & Point to Multipoint Wi-Fi**
- For events and festivals
- Connect multiple locations to one single central location

**Peplink Enterprise Router**
- High speed and reliable
- Highest internet connectivity
- For small offices, training sessions and conferences

**Fibre Optic Cabling**
- Wider bandwidth and fast transmission solutions

**WiFi in A Box**
An all-in-one, plug and play WiFi setup. Perfect for a range of events.
- Provides WiFi to 100+ users concurrently.
- Bandwidth control
- Light and portable
- 24/7 Remote support
- Equipped with pull handle

**MORE INFO ON THE NEXT PAGE**
**OWR WiFi in a box**

**Scalable:** 100+ Users per box, scale up as needed.
**Simple to Install:** Plug it in, flip the switch, starts in 3 minutes.
**International:** Local plug points provided (works w 110v & 220v)
**Deliverable:** Durable/portable (under 10Kg) pelicases.

**ACCESS POINT:**
- CAPTIVE Portal (custom landing pages available)
- 5Ghz and 2.4Ghz (5Ghz recommended)
- Complies with all main WiFi security standards
- Web content filtering

**PLUG IT IN, FLIP THE SWITCH, STARTS IN 3 MIN!**

**LIVE REMOTE SUPPORT 24/7**

**LOW POWER CONSUMPTION**
**MULTI-REGION PLUGS**
**COMPATIBLE WITH 110v & 220v**

**PORTABLE AND DURABLE (UNDER 10KG)**

**WHEELED-PULL HANDLE FOR EASY TRANSPORTATION**

**100+ USERS CONCURRENTLY**

**REMOTE ACCESS MANAGEMENT**

**BANDWIDTH CONTROL**

- Uses 4 x 4G/LTE-Advanced, global band routers.
- Runs concurrently for increased performance and 99.9% uptime.
- Remote access management: user bandwidth and usage analytics
- Traffic shaping and Bandwidth Control per user
- Optional additional private SSIDs (WiFi networks) and passwords.
- Live Remote Support 24/7
Voice & Video Conferences

Cloud PBX, VoIP and Video Conference Solutions Made Simple.

Whether it’s to catch up with another team member stationed in a different part of the globe, or to give an important sales presentation to staff members or clients, video conferences are an essential part of daily business communication.

At OWR, we provide fast VoIP telephony for a variety of event types, including: video conferences, temporary or permanent office setups, training sessions and more.

Desk Phones

We have a large range of desk phones, such as: Yealink, Grandstream and Fanvil. These phones offer dynamic business communications for executives and professionals.

- Allows numerous SIP accounts.
- Unparalleled audio clarity.
- Gigabit Ethernet technology.

iOS & Android Applications

With this app, calling from over 3G or from any WiFi hotspot is extremely reliable, as well as user-friendly.

- Make and receive calls from your smartphone – at no cost.
- Set your status to ‘available’, ‘away’ and ‘out of office’ from your smartphone.
- See the status of your colleagues from anywhere.

Web Tool

Take advantage of video conferencing as an online meeting tool.

- Launch calls on your desk phone from your desktop.
- Access to full range of Unified Communications features.
- Easy to use and manage.
- Work seamlessly as if you were in the office and save on call costs.

Instant Number Provision and SIP Trunking Solutions from Anywhere In The World.

Local Number DIDs for a range of event types, including temporary and permanent office setups.
From Detail and Design, To Delivery & Deployment of Event Infrastructure.

At OWR, we provide Leased Lines & Ethernet Circuits, Multi-Site WANs and Project Management, giving our clients that extra peace of mind. Our services are perfect for video conferences, temporary or permanent office setups, business conferences and more.

**LEASED LINES & ETHERNET CIRCUITS**

Fully scalable bandwidth right up to 10Gb. Uncontended data circuits with industry leading SLAs. Suitable for events demanding the most reliable, high performance circuit needed for business voice, video and data applications whether used for Internet, MPLS or site to site access.

**MULTI-SITE WAN’S**

Suitable for any sized event that operates across multiple office locations, has remote workers or is utilising services to the cloud. From next-generation MPLS networks to VPN and point to point circuits, our WAN solutions are designed to provide you with high-speed, secure and ultra-reliable inter-site and internet connectivity.

**PROJECT MANAGEMENT**

From design to delivery & deployment of Event Infrastructure. For world class events, OWR Project Management will partner with you from concept to system design and installation to the moment of “go-live” and derig, our solutions and services are underpinned by expert project management every step of the way. After all, providing premium products and systems is only part of the story – how they are delivered, deployed and supported is every bit as crucial.

Fulfilling Specific Client Event Needs from All Corners Of The Globe.
**Printing**

Konica Minolta Bizhub 227

Features a multi-touch interface for intuitive control — with LEDs that allow visual confirmation from a distance, plus an optional Voice Guidance system which provides audible control instructions.

- Speed A4/A3: 22/14 ppm in black & white
- Paper formats: A5-A3
- Cost effective A3 black & white multifunctional printer
- State-of-the-art mobile print technology
- Perfect for a variety of event setups

Rent from OWR with unlimited paper and prints as part of our business event packages!

Shredders

With security and privacy paramount for business, you need a reliable, powerful cutter that gets the task done and gets it done fast.

These shredders can shred staples, credit cards and paper clips. Some models also feature SafeSense technology to prevent shredding accidents, stopping the cutters when hands touch the paper opening.

These shredders are great for disposing of client-sensitive information during, or after an event has ended.

(model availability may vary)
Registration & Badging Solutions

Linea Pro Scanner

• Gives iPod Touch and an iPhone the ability to scan barcodes and QR codes through pressing the buttons on the side
• Functions as a magnetic card reader to take payments
• Scanner charges the iPod or iPhone when it’s in use

Apple iPod Touch 6th Gen

• Use with Linea Pro to take payments and scan QR codes
• Screen size: 4 inch
• Display resolution: 1136 x 640
• RAM: 1GB
• Battery: 1043mAh
• Camera: 8MP
• Storage: Up to 32GB

Zebra Barcode Scanners

• Scan QR codes & barcodes
• Type: Bluetooth / wired
• Bluetooth scanners work with iPads and Androids
• Wired scanners work with laptops

NFC Reader

• A simple, efficient tool that enables you to read contactless tags on your smartphones and tablets.
• Easy to use.

Field Drive Kiosk

• The unit fits in a compact flight case and can be setup in less than 3 minutes.
• Can operate independently from an internet connection and can continue to print badges when the connection is interrupted.
• The kiosk can be also branded with your own custom designs.

Badge Printing & Lanyard Solutions

We offer personalised branding to cater your specific event requirements. Whether it’s the ability to include barcodes for visitor tracking or full credential passes, we can personalised these badges for your event needs.

FAST AND EASY, USER FRIENDLY EVENT REGISTRATION!
Registration & Badge Printing

Zebra GK420 Printer
Ideal for applications that require network manageability, low cost.
- Fast and advanced
- Print labels, receipts, tags, badges
- Resolution: 203 dpi
- Speed: 4" per sec
- Print width: 4.09"

ZEBRA ZD500 Printer
Delivering top-quality performance in demanding applications.

**We also offer a full customised menu service for Square software! Speak to our team for more info.**
Qu-16 reshapes digital mixing, combining innovative design and exceptional functionality to create a superb professional mixing experience.

Bristling with all the features you’d expect from a top of the range digital console and incorporating technologies pioneered on the GLD and iLive digital mixing systems, Qu-16 has the power and pedigree to deliver class-leading audio performance.

Qu is an entire ecosystem with Remote AudioRacks allowing I/O to be placed where it’s needed, ME Personal Mixers expanding monitor mixes and enabling simple, time-saving local control.

Qu series features include multitrack recording direct to USB, Automatic Mic Mixing, ProFactory mic presets, plus an ever growing ecosystem of apps, accessories and remote I/O.

Qu Apps for complete remote setup and wireless mixing on stage or anywhere else in the venue. ProFactory Mic presets to speed up preparation time and ensure the best sound, plus USB recording and DAW integration for powerful workflow optimisation from one centrepiece device.
SENNHEISER EW100 G4-ME2-GB LAPEL MIC

This versatile wireless bodypack system is the perfect choice for speech and vocals while remaining hands free.

The state-of-the-art transmitter design features a lightweight metal casing with backlit LCD screen and microphone mute switch.

The lapel microphone contains a high-quality omni-directional condenser capsule and is designed for performance and speech intelligibility.

SENNHEISER XSW 1-835 WIRELESS HANDHELD MIC

Vocal Set is a user-friendly all-in-one wireless system that is perfect for live vocal performances and spoken word presentations alike.

Featuring Sennheiser’s renowned evolution microphone capsule with a cardioid pickup pattern, the XSW 1-835 system delivers natural vocal reproduction while rejecting feedback and eliminating ambient noise.

Operating within the the 863MHz-865MHz frequency range, the XSW wireless microphone system is equipped with automatic frequency management and synchronization via remote channel, integrated antennas and professional True Diversity technology.
The DXR12 is an extremely high-power loudspeaker that is capable of producing a maximum SPL of 132dB with its impressive 1100W of power.

It is the perfect solution for live sound applications that demand wide bandwidth and extremely high-resolution sound.

Features
- 12” 2-way, Bi-amp powered speaker, bass-reflex type
- High-efficiency 1100W class-D amplifiers
- Intelligent onboard 3-channel mixer
- Superior components
- Unequalled performance
- 132dB SPL

Rigging Points for Standard Eye-Bolts and Optional U-Brackets
DXR Series loudspeakers come equipped with rigging points, allowing for rigged application with standard eyebolts*. When more versatility is required, optional U-brackets allow simple and easy rigging in both horizontal and vertical configurations.

Dual-Angle Pole Mount Socket
The DXR’s pole mount socket offers two positions—0° and 7°—to direct the acoustic energy away from reflective surfaces and on to your audience where it belongs.
GIANT iTABS

Giant iTab magnifies the smartphone interface using an extra-large touchscreen. Content is showcased and presented in a familiar way – it looks like a giant smartphone. Giant iTabs are big, they’re fun to engage with, and your consumers already know how to use them.

These multiple award-winning products draw people in, create buzz at events, and best of all, increase sales. Use them at exhibitions and trade shows, in retail and hospitality, for education teaching and training, app development, live broadcasts and presentations, and more.

Giant iTab 27"
A versatile solution to support your presentations and trade show.
- Screen size: 27"
- Aspect ratio: 16:9
- Panel: AMVA + LED
- Resolution: 1920 x 1080
- Camera: Yes
- Dimensions: 81cm x 7cm x 44.2cm

Giant iTab 42"
The flagship interactive engagement solution for events.
- Screen size: 42"
- Aspect ratio: 16:9
- Panel: AMVA + LED, AG Coated glass
- Resolution: 1920 x 1080
- Dimensions: 164cm x 11cm x 60.5cm

Giant iTab 55"
The newest giant touchscreen solution – promoting brands.
- Screen size: 55"
- Aspect ratio: 16:9
- Panel: IPS LED, AG Coated glass
- Resolution: 1920 x 1080
- Dimensions: 235cm x 58cm x 114cm
DIGITAL SIGNAGE

The purpose of digital signage is to create, inspire and inform. We provide customisable services, using software, to post your Instagram feeds, Twitter competitions, pre-load content to appear onscreen, play video loops and more. This is useful for festivals with rolling bar prices and other real-time information.

TV SCREEN / DIGITAL SIGNAGE MONITORS

Sizes available: 32", 55", 85" & LED Panels

Available in: Samsung, LG, Panasonic, iiyama

We currently hold the best technology brands in the industry.

From digital signage, to simple monitors and TVs, Android-ready screens, Magic Touch technology, available with different stands to accommodate different event types.

We use Unicol® stands, ensuring great looking and safe setup.

TOUCH SCREEN MONITORS

Sizes available: 27", 32", 43", 55", 65", 75"

All of our touch screens use capacitive touch technology.

This technology uses a sensor-grid of micro-fine wires integrated into the glass that covers the screen.

Thanks to the glass overlay this technology is highly durable, and the touch function remains unaffected even if the glass is scratched. It offers perfect picture performance and will work with a human finger (also latex gloved) and stylus-pen.

WE CONSTANTLY UPGRADE OUR STOCK, CURRENT SIZES AVAILABLE MAY NOT CORRESPOND TO OUR UPDATED INVENTORY. PLEASE ASK FOR THE CURRENT STOCK AVAILABILITY.
LED Video Wall Panels

Pixel Pitch mm: 2.5
Brightness nit: 1000
Refresh Rate Hz: 3840
Panel Dimensions: 500x500x87 (WxHxD mm)

LED Wall Hire has become a very popular choice for all types of events including conferences, exhibitions and live music.

One World Rental can provide you the latest technology for your event. 2.5 Pixel Pitch ensure optimal viewing distance for your display from both short and long distances, and the curved panels (up to 15 degrees) give freedom of creativity and total reliability to your favourite led wall design.

We constantly upgrade our stock, current sizes available may not correspond to our updated inventory. Please ask for the current stock availability.
This projector is easy to connect to, with multiple inputs, a built-in speaker and USB Power.

Perfect for connecting HDMI dongles such as the Google Chromecast and Amazon Fire TV Stick or a laptop, PC or Blu-ray player for clear projected images with sound. Optoma projectors can display true 3D content from almost any 3D source, including 3D Blu-ray players, 3D broadcasting and the latest generation games consoles.

- 3600+ Lumens
- Amazing colour
- High contrast
- Quick resume
- Auto Power Off
- Full 1080p HD
- Eco+
- AV Mute
The Chauvet Freedom Par Hex-4 is a 100% true wireless, battery-operated, hex colour (RGBAW+UV) LED Par light, with a built-in D-Fi transceiver.

Extend the battery's lifespan with the discharge protection. Light works in Master/Slave modes with first generation Freedom Pars. Use the adjustable kickstand that is built-in to the Freedom Par to shine light wherever it is needed. Create customised colours with the LED display screen. Safely transport your fixtures from gig to gig in the CHS-FR4 carry bag, perfect for mobile entertainers.
V1 – HD Seamless Switcher

Videography and Webcast
The compact V-1HD is an ideal portable solution for switching video and action cameras for webcasts or recording.

Visual Performance
The V-1HD effortlessly mixes high resolution computer and HD camera sources and gives visual artists unique filter effects and transition performance features including Roland’s legendary “TRANSFORMER” buttons.

Education
The V-1HD is an easy to use tool for students of all ages to broadcast or record sporting events, performances and other activities around campus.

Event and Meetings
The V-1HD is ideal for presentations in conference rooms or at live events allowing for switching of video from different sources such as computers and video cameras.

UltraStudio Mini Recorder gives Roland V-1HD recording and Live Streaming capabilities on main social media platforms.
Virtual Reality

**Microsoft HoloLens**
Augmented Reality headset.
- Field of view: 30°/17°
- RAM: 2GB
- Storage: 64GB
- OS: Windows 10
- Battery: 2-3hrs

**Oculus Go**
All-in-one Virtual Reality headset.
- Field of view: 180°
- RAM: 3GB
- Storage: 32GB
- OS: Qualcomm Snapdragon 821
- Battery: 2-3hrs

**Samsung Gear VR**
Mobile Virtual Reality headset.
- Field of view: 101°
- RAM: 4GB
- Storage: N/A
- OS: Android Lollipop 5.0
- Battery: 2hrs

Virtual reality creates a three-dimensional, computer generated environment than can be explored by an individual or group of people.

It creates a fun ‘optical illusion’ which many industries use to promote new games or schools utilise for an interactive learning experience. Virtual Reality can be integrated with apps on Samsung phones and combined with MSI gaming laptops for the full engaging Virtual Reality experience. Our equipment enables users to:

- Engage guests with live tours
- Create fun games and competitions
- Virtual reality gamification
- 360-degree virtual experiences

**How is AR different to VR?**

Virtual reality means computer-generated environments for a user to interact with, and be immersed in. Augmented reality adds and enhances the reality a user would ordinarily see rather than replacing it.

Augmented reality can provide many benefits to any kind of corporate and public organisation, it allows for organisers to implement:

- Product demos and visualisation
- Interaction through virtual learning
- Broadcasting of live events
- AR can aid in visualising office spaces.
- The integration of AR apps
- Social interaction apps
- Translate foreign texts and menus

Capture Stunning Full HD & 4K Event Footage With Our Range Of Professional Equipment.

We know the importance of your events. Planning an event takes immense time and sheer dedication to ensure a flawless execution. By using event videography and photography, you can both enjoy, and capture incredible moments.

**Cameras & Lenses**
State-of-the-art, industry-leading cameras accompanied with a variety of lens sizes to suit your specific event requirements.

**Lighting**
High-quality, colour accurate lighting to take your event videography to the next level. Perfect when filming in poorly lit areas.

**Tripods**
Professional video-stabilisation equipment to help capture stunning full HD & 4K footage of your event.
Video Streaming

Live Stream Wherever You Are, At The Push of a Button.

Stream live events on your own dedicated site and across social media channels, such as: YouTube, Facebook, LinkedIn and more. Streaming your live events is a great way to savour those special memories and inform others of your products and services.

Instantly Stream to Your Preferred Social Media Sites

Teradek Cube

Cube packs world-class video quality into a rugged, portable chassis for quick IP video deployments at any location. Each encoder and decoder includes HDMI and 3G-SDI I/O, Ethernet / WiFi connectivity, and full duplex IFB.

- HEVC (H.265) & AVC (H.264)
- Max Resolution: 1080p60
- Up to 30 Mbit/s

Multi-Platform Streaming

Reach a wider audience by streaming to multiple platforms simultaneously. Restream is natively integrated into top streaming softwares, like OBS Studio, SLOBS, Elgato, XSplit, and many others.

- 30+ Social platforms, from giants to local gems
- Multiple channels on a single platform
- Add live voiceovers and translations to your streams

Push your live video feeds to Facebook, YouTube, decoders, and more with Core’s multi-platform distribution. There’s no limit to the amount or type of destinations.

- Reliably manage your Teradek devices
- Live stream to your online audiences on multiple platforms
- Deliver live video to broadcast hardware and software
- Record in the Cloud
Along with our product rentals, we also provide services to help make your event run smoothly.

Our highly skilled circle of technical experts can add the finishing touches to your event. Services include onsite tech support, project management for complex events, Wi-Fi installation and site surveys. If you have any other requests, speak to our friendly customer service team who will be happy to assist you.

- **ONSITE TECH SUPPORT**
  - Our onsite technicians can provide support with ad hoc onsite tasks and the installation of devices, and can setup, and secure reliable Wi-Fi network configuration.
  - We provide onsite tech support and training for event staff.

- **PROJECT MANAGEMENT**
  - We’ll provide project management from full consultation to event completion. This includes liaising with venue staff on all planning elements, arrangements for setup, installation, content and configuration.

- **SITE SURVEYS**
  - We can visit event locations and conduct site surveys and collect information that will enable us to provide the best technical solutions.
  - We evaluate any potential risks or hazards to ensure a smooth and safe operation.

- **CUSTOM SOFTWARE**
  - We offer bespoke app and software building for each event. This can include menus, form creation, payments, seating charts and floor plans, VIP alerts, splash pages, and social media tracking, among other features.

- **OPERATIONAL EXPERTISE**
  - We can ease your stress and handle all the logistics and operations for your event. We’ll organise the deployment and distribution with efficient transportation to get it exactly where you need it, when you want it.

- **PRE-CONFIGURATION**
  - Preconfiguring products and systems ensures you’re able to simply plug and play without installing or aligning technical settings.
  - We also offer digital marketing through video creation and integration with digital signage.

- **WI-FI INSTALLATION**
  - We deliver fast, secure Wi-Fi for any event, anywhere in the world, regardless of existing infrastructure or bandwidth needed, including MiFi, Access Points, hardline, satellite and personalised bonded internet.

- **CONSULTANCY**
  - We provide consultancy services for event planning, management and logistics from conception to completion to get the best outcome. Our recommendations are based on over a decade of global experience.
Event Logistics are the backbone of successful global event technology fulfilment. OWR Logistics is an internal division of One World Rental providing first-class, mission critical storage, logistics, maintenance and on-site operational services.

A strategic, logistical platform deeply embedded across all four corners of the globe.

Supplement your own inventory with OWR when required, throttling up only when needed seamlessly.

Store your own inventory with OWR in global locations minimising costs and maximizing utilisation, giving you overnight access to 12+ regional hubs.

Outsource your own inventory maintenance and upkeep to OWR utilising operational and technical expertise at local levels around the world.

Move and manage your own inventory at OWR logistics with efficient and failsafe freight forwarding across borders.

Staff/Engineers

We have an extensive team of professional staff and engineers to help make your event as successful and memorable as possible.

Our team of Event Staff is comprised of IT & AV Technicians and Network & Lighting Engineers.

These highly skilled professionals are experts in custom-configuring hardware, installing equipment and providing the best possible experience for our clients.

Our highly skilled IT technicians will install and configure your hardware and monitor it for any issues. They can customise, create, and configure iOS or Windows software as well as install EPOS equipment.

We can configure and install AV equipment for any size event, including setup of digital signage, live streaming, broadcasting, cable installation, projection, speakers, mics, diagnostics and monitoring live feeds.

Our IT/AV assistants can install and configure AV equipment, provide support, sync internet connections, coordinate graphics, support teleconferences, monitor webinars and test sound equipment to specification.

We provide secure, high-speed internet for an extensive range of events. This includes the setup, installation, and troubleshooting of equipment and also repairing/replacing faulty connections on-site.

We can program and operate stage lighting equipment, develop technical solutions, and offer advice and technical support. We promote the development and maintenance of best lighting practices and standards.

Event technicians with local knowledge and global experience.
Quality Assurance

One World Rental provides a fast, reliable and consistent service including Health & Safety, international coverage and 24/7 global support.

Our dedicated, professional staff are here to help make your event as successful and memorable as possible.

HEALTH & SAFETY

All of our equipment is checked and monitored regularly and undergoes PAT (Portable Appliance Testing) to meet electrical safety standards. Our equipment is sound, safe, and in perfect condition.

INTERNATIONAL COVERAGE

One World Rental can deliver technology anywhere with as little as 24 hours’ notice. We have global offices and storage facilities which help us to quickly and efficiently deploy event technology and technical staffing.

24/7 GLOBAL SUPPORT

We offer 24/7 technical support during your entire rental period to make sure everything runs efficiently at all times. This can include remote support or an on-site technical presence throughout the event to make it effortless.

PROJECT MANAGERS

Our dedicated project managers manage and coordinate complex events to deadline and specific requirements. Educated in logistics and trained accordingly, they’ll execute each event precisely, every time.

GRAPHIC DESIGNERS

Our graphic designers create artwork that connects with your branding and vision. We’ll produce layouts and designs that can solve any digital marketing challenge while showcasing flawlessly at events.

VIDEO PRODUCERS

Videography and production through visual storytelling. We create content for digital signage and broadcasting at events, conferences and festivals. Professional filming and post production starts here.
One World Rental is a key partner for cutting edge event technology deliveries across borders and available for support and assistance around the clock.
